Feb 2007 – Nov 2013

- Completed with a first grade, 12 aggregates.

PROFESSIONAL EXPERIENCE

I completed my internship at Kabale University in the Department of ICT Services from 2nd June up to mid August.

During this period, I gained practical experience in IT support, including troubleshooting hardware, Training Fresh students on how to use the University systems, managing network connectivity, and maintaining computer systems.

The internship enhanced my technical skills, problem-solving ability, and understanding of real-world ICT operations.

I participated in training individuals through a program conducted in partnership with Uganda Institute of Information and Communications Technology (UICT), Ministry of ICT and national guidance and International Telecommunication Union (ITU).This experience strengthened my ability to share digital skills, support learners, and contribute to community ICT capacity building.

TECHNICAL SKILLS & TOOLS

Category	Tools & Technologies
Web Development	WordPress, HTML & CSS, Python (Django framework)
Computer hardware repair & maintenance	Maintenance kit
Graphics Design	Pixellab, Adobe Photoshop (Intermediate)
AI & Computer Vision	Python (intermediate), OpenCV
cybersecurity	Intermediate (Kali linux)
Networking	Cisco packet tracers, eNSP

Tech Certifications earned.

CERTIFICATIONS	DESCRIPTION
1. Cybersecurity	Finalist on the National cyberstars competition organised by UCC, 202
2. Cybersecurity (one month course)	By Uganda Information and communication Technology (UICT)
3. Course completion (HCIA-DATACOM)	By HUAWEI
4. Deep learning Indaba Rwanda 2025 conference	Annual African Indaba conference
5. Foclis AI hackathon	Organised by the faculty of computing
6. Cyber threat management	By Uganda Information and communication Technology (UICT)
7. Creating and compelling reports	By Uganda Information and communication Technology (UICT)
8. Chatmap for Trash mapping	By YOMA
9. Generative AI	By OTIC foundation in collaboration with National Innovation hub, Nakawa, Uganda

Freelance Web Developer & Designer (Remote – Ongoing)

Am one of the founders of Dot1q-agency, which is currently a local tech initiative providing tech solution especially in web development, networking, and computer repair around Kabale University.

I took part in the re-development of kabale university guild website with the 9th guild government.

AI & Computer Vision Learner – Personal Projects

Am currently working on an AI project “A prediction model for early detection of foot and mouth disease in cattle.”
